8 March 2010

The 4th ENERGAÏA exhibition from 8 to 11 December 2010

ENERGAÏA - International Renewable Energies Exhibition
Montpellier Exhibition Centre (France)

The 4th ENERGAÏA, International Renewable Energies Exhibition, will be held from Wednesday 8 to Saturday 11 December 2010 at the Exhibition Centre in Montpellier, Languedoc-Roussillon, one of the leading Region in France for renewable energies where the sun and wind are at home.

Organised by ENJOY Montpellier, with the backing from the Languedoc-Roussillon regional council, ENERGAÏA 2010 is once again enjoying the support of the industry on a national and international level.

A 100% event for professionals

After just three years, ENERGAÏA has already become one of the leading event in Europe and France. More than 450 exhibitors from over 20 countries are presenting their latest, cutting-edge innovations to investors, contractors, engineers, architects, as well as local and regional French and Mediterranean countries territories authorities (key players in the development of renewable energies) looking for sustainable energy solutions.

A 100% renewable energies and green building event

All areas of renewable energies will be represented: solar thermal, photovoltaic, wind energy, wood energy, geothermal, hydraulic... with a special focus on solar energy and its integration into the building industry.

A 100% business event

ENERGAÏA acts as an interface for business and exchange between professionals and experts from France, Europe and the Mediterranean countries.

A proven networking event, the International B to B Forum, in the framework of the exhibition, offers exhibitors a unique opportunity to meet a selection of international buyers and investors.

A 100% global event

The exhibition will be punctuated by several key events:

- The international conferences cycle, chaired by leading experts,
- The International B to B Forum,
- The Job Forum, with dedicated career meetings,
- The Innovation Trophies 2010, rewarding the most innovative projects,
- The Energaïa Training section, to meet the needs of the industry.

Press release

enerGaïa

"30,000 visitors from 48 countries attended the last Energaïa in December 2009 to discover state-of the-art energy solutions from 400 international exhibitors. Energaïa is now positioned as one of the leading exhibition in the sector. In 2010, Energaïa will be the number one 100% business event for all the key players in the renewable energies and high-performance sustainable building sector in France, the Mediterranean countries and well beyond," state François Barbance, Managing Director of ENJOY Montpellier, and Guy Haddad, Energaïa Show Manager.
