

Thursday December 6th

9.30 AM – 11.00 AM

OPENING SESSION ENJ – 1

Georges Frêche
 President Languedoc-Roussillon Region (France)
Yves Piétrasanta
 Vice-President Languedoc-Roussillon Region (France)
Mohamed Boutaleb
 Ministre de l'Energie et des Mines (Morocco)
Riccardo Illy
 President of Friuli Venezia Giulia (Italy) Region / President of the Assembly of European Regions
Michèle Pappalardo
 Presidente of ADEME (France)
Abdelaziz Rassaâ
 Secrétaire d'Etat, chargé de l'Energie Renouvelable (Tunisia)
Claude Turmes
 European Parliament – to be confirmed
Arthouros Zervos
 EREC President - European Renewable Energy Council

Conference Room
EUROPA

9.30 AM
11.00 AM

Thursday 6th

ENJ-1

11.00 AM – 12.30 AM

Exhibition Official Inaugural Visit

Thursday 6th

11.00 AM
12.30 AM

11.30 AM – 6.00 PM

Full-day conferences « FUEL CELL EUROPE » FC-1 / FC-2

Creating a sustainable energy future with fuel cells in the regions of Europe

Conference Room
GAÏA

Thursday 6th

2.30 PM – 5.30 PM

CONFERENCE ENJ – 2

The existing and new building sector facing the “Factor 4” stakes – International and European experiences

“Factor 4” stakes in the building and construction sector / The SBCI Initiative “Sustainable Building & Construction Initiative” of PNUE (an International example of public/private partnership for a sustainable construction and building best practices dissemination) / The European Building Platform : how to mobilise and gather actors to take up the challenge / Prebat International comparison (techniques, incentive, building and energy research programmes) / Minergie operation example : lessons learnt, reports and prospects.

Coffee break

The passivHaus buildings : success factors-importance of the regional dynamics, industrials involvement and local impacts / How to promote low energy consumption buildings in France : the Effinergie approach.

Round table 1

How to generalise and increase the approach in the existing and new building sector ?

From global to local... the territories'role / Cities at the core of the action – How to organise a European answer for sustainable territories / Financing energy management and renewable energies in existing and new buildings.

CONFERENCE ENJ – 3

Stakes and prospects of renewable energies in the European Regions. The European 3 X 20% challenge

The Renewable Energy Framework Directive / 20% renewable by 2020 – the roadmap of the EU industry / Renewable Energy development in France : an overview.

Round table 1

Europe and Renewable Energies : EU Renewable Energy Policy & Market Development The Renewable Energy Policy Roadmap and how to create a scale up effect

Technology perspectives from different renewable energy sectors : Wind : **EWEA** (European Wind Energy Association) / Photovoltaic : **EPIA** (Européen Photovoltaic Industry Association) / Small Hydro Power : **ESHA** (European Small Hydropower Association) / Biomass : **AEBIOM** (European Biomass Association) - **EUBIA** (European Biomass Industry Association) / Geothermal: **EGEC** (Européen Geothermal Energy Council) / Solar : **ESTIF** (European Solar Thermal Industry Federation).

Coffee break

Round table 2

Decentralised RES integration - A challenge for regions

Best practice examples from regions & islands / Financings / Tomorrow's electricity grid (Smart Grid) / Heat integration / How to organise territories / Industrials'evidences / La Réunion island example - How to face the electricity demand increase : a challenge for La Réunion, an opportunity to develop renewable energies and encourage energy demand management.

Conference Room
EUROPA

2.00 PM
5.30 PM

Thursday 6th

ENJ-2

Conference Room
HELIOS

2.00 PM
5.30 PM

Thursday 6th

ENJ-3

8.00 PM

Gala Dinner
ENERGAÏA 2007

Price and Awards Results

8.00 PM

9.00 AM – 5.00 PM

Full-day conferences « ASSEMBLY OF EUROPEAN REGIONS » ARE-1 / ARE-2

Together for a more sustainable future : Regions' alliance towards a more rational use of energy

Conference Room GAÏA

Friday 7th

9.30 AM – 12.00 AM

CONFERENCE ENV – 1

An Action Plan for the promotion of RES heating

Territories and the renewable energies' thermal uses development strategies.

Round table 1

How to create a functioning framework for RES heating ?

Elements of RES heat obligations : the Barcelona example / Financial frameworks : the Austrian example / Removal of administrative procedures / Best practice examples France Wood Program – France Solar Plan – Upper Austria / The solar thermal case : how to create a market in Europe new members states (the East-GSR project experience) / Promoting a quality approach through the GSR.

Coffee break

Round table 2

RES Cooling : a new emerging technology

Technological solutions / Best-practice examples / Specific measures to further boost this technology / The Haribo solar air conditioning example (Uzès-France) in Languedoc-Roussillon.

Conference Room HELIOS

9.30 AM
12.00 AM

Friday 7th

ENV-1

CONFERENCE ENV – 2

The European Regional dynamics for “Factor 4” buildings – Experiences and initiatives

The Regional governance facing energy stakes : the construction's place / Regions – A driving force to create a dynamic – European examples.

Round table 1

European regional dynamics : lessons learnt

Copenhagen : lessons learnt ? How to go on with this approach ? / Barcelona : a community commitment in buildings solarization - How to duplicate this experience ? / An italian Region example.

Coffee break

Round table 2

French Regional dynamics : lessons learnt

The Languedoc-Roussillon Region : call for regional projects and partnership with the Pole Derbi Cluster... The Mediterranean climate specificities' consideration / Alsace and its Energivie programme on renewable energies – Training organisation – Partnership with INRA in Strasbourg / Franche-Comté and its energy efficiency programme / “Campus Vert” (Green Campus) example.

Conference Room EOLE

9.30 AM
12.00 AM

Friday 7th

ENV-2

CONFERENCE ENV – 3

The Euro Mediterranean Region facing the energies challenges

Participants : Ministre de l'énergie et des mines (Morocco) / Secrétaire d'Etat chargé des EnR (Tunisia) / European Commission / Plan d'Action Méditerranéen - Plan Bleu / OME / MEDENER.

Coffee break

Round table 1

Eco Region stakes

The Mediterranean Eco Region : actual situation and development / **Energy stakes** : the energy management issue and its possible role for renewable energies / **The mediterranean building** : between tradition and performance improvement – How to organise the offer.

Round table 2

The actors of development

Territory, the energy management and renewable energies' development stake / The euro Mediterranean cooperation issue / The decentralised cooperation : the development leverage / Companies' role in the energy transition / National agencies'role in the market evolution.

Two countries will be highlighted :

- **Morocco** : the role of communities in the rural electrification programme : the buildings thermal regulation implementation stakes.
- **Tunisia** : buildings energy efficiency improvement / Equipments labellisation lessons learnt / The solar thermal market.

Conference
Room
EUROPA

9.30 AM
12.00 AM

Friday 7th

ENV-3

2.30 PM – 5.00 PM

CONFERENCE ENV – 4

Decentralised Energy production in European Regions

Introduction : how to organise territories to produce locally – From local to global from a sustainable development point of view.

Round table 1

Sustainable hydropower – The way forward

Iso 14001 certification for SHP producers – an innovative approach / Sustainability guides for SHP / Public image of SHP / New approaches for environmental & social engineering / Spacial planning / Innovative product example MJ2 – PHE.

Coffee break

On the grid production

Single model or combined approach ? European lessons learnt.

Round table 2

Increasing the Wind and PV penetration – Challenges and opportunities

Strengthening the market development / The PV case : building integration and PV farm, complementary approaches / The Navarre Example / Mobilise financing / Industrial example : silicium of Provence (France) Valorem Wind Energy / Creta Example.

Conference
Room
HELIOS

2.30 PM
5.00 PM

Friday 7th

ENV-4

CONFERENCE ENV – 5

The Building market : an evolving offer

With the participation of the Industry Federations : French Building Federation (FFB), CAPEB (Small businesses building Federation)...

New markets / Organisation of professionals training / Development of new services / Mobilisation of available funding.

Conference
Room
EOLE

2.30 PM
5.00 PM

Friday 7th

ENV-5

CONFERENCE ENV – 6

Mediterranean countries and Economical activities : Energy and Climate Stakes

Climate / Energy / Cities / Transport / Tourism / Water / Planning : crossed stakes and constraints anticipation, impacts and adaptation to climate change.

Round table 1

Medierranean urban spaces' vulnerability and adaptation in front of climate changes effects

Understand Mediterranean urban spaces vulnerability stakes in front of climate change effects and adaptation's measures - Experience sharing / Habitat informel (Tunisia) / Alexandria (Egypt) City's Case / HQE standards : which applicabilities ? / Morocco : Agadir example.

Coffee break

Round table 2

Tourism and climate change : impacts and adaptations

Understand Mediterranean tourism vulnerability's stakes in front of climate change effects and share experiences or reflections allowing their anticipation / The tourism issue in the Euro-Mediterranean region : climate/energy/building/water/regional development : crossed stakes / Anticipate constraints (impact and adaptation).

Round table 3

Tourism, energy and climate change

With the participation of : PNUE/DTIE / IDDRI / Tourism & Hospitality Management (Turkey) / Ministère de l'environnement (Algeria).

Conference
Room
EUROPA

2.30 PM
5.00 PM

Friday 7th

ENV-6

5.00 PM – 6.00 PM

CONFERENCE ENV – 7

Closing session : Regions, leading actors for more energy efficiency

- Joined Closing session : ENERGAIA Conferences
- Assembly of European Regions conference
- Synthesis and recommendations
- ENERGAIA 2008
- Declaration and signature of the new ARE chart by European Regions.

Conference
Room
EUROPA

5.00 PM
6.00 PM

Friday 7th

ENV-7
